## Official Addresses Post Masters

Hon. John J. Hart of Ottawa, Ill., secretary and treasurer of the National Association of Postmasters addressed a group of Mississippi postmasters at the Community House Sunday afternoon. Mr. Hart gave a most interesting discussion of matters of national state and local importance.

We join other friends in Mississippi in wishing for our senior U. S. Senator, Pat Harrison, a speedy and complete recovery. We have not always been for Pat Harrison, but nevertheless we regret that his health is so poor that he may never again take active part in governmental affairs.

Our puppy, Bilbo, seems to be enjoying life. When humans move, they have to get their hat, find their false teeth, locate their spectacles, see if their purse is in their pocket, brush their hair, put on a clean shirt, dust off their shoes, kiss the old lady goodbye, and do many other things. All Bilbo has to do is to arouse himself from peaceful slumber and is ready to go a block, a mile, to New York, or to the ends of the earth. There is nothing like being a dog.

Our young friend, Fred Joiner, who is enrolling in the Coyne Electric School in Chicago, will receive the GCW. His many friends here at home anticipate that he will make good in school and will make good in life. Luck to you, Fred.

We will be delighted to have all of our friends drop in and see us, as always. We have a bit more room for them to "set and rest their feet".

That loaf of bread and box of salt which was the first thing we moved into the new building "worked", for we did not have a bit of trouble - just plenty of pushing and work - in moving. This placing of bread and salt in a new location is an old Jewish custom, according to Harry Greenfield.

We were happy to have a long distance call from Jack Robinson in Chicago Saturday evening. He was at a birthday dinner and just wanted to send greetings back to Mississippi. If I had not known his well established habits of sobriety, I might have felt that he was feeling his oats, as the saying is.

Tom Irby and family of the Indian Territory have been visiting Mrs. Irby and family. Tom, an old war friend, has made good out there and we are happy to say so.

Last Saturday we had lots more orders of shoes to be repaired than we did of printing orders and new subscribers as we moved into a former shoe repair shop.

Professor Throver is trying to convert some of the heathens up Coffeeville way. He had his "pitcher" in the Coffeeville Courier last week.

If our senators and representatives have influence in Washington, it is high time that they show it by shutting down war business in Mississippi. Otherwise, folks will begin to think that their influence is largely but figments of the imagination.

Remember: those who have "come 21" since the last registration will have to register on July 1st.

I guess, from the many rejections on account of bad teeth, that Uncle Sam is going to expect his soldiers to bite the enemy. Teeth and finger-nails are about all most of the soldiers have to offense and defense.

Dear Jake Kettle: the next time you pass by here stop and get a key that I want duplicated.

## Several Hundred Saw The Horses Run Last Sunday

It looked like the "good old days" out at the Fair Grounds last Sunday afternoon when several hundred race fans from Grenada and adjacent towns witnessed some of the best harness races that have ever been seen in Grenada.

Due to a lot of hard work, and some cash money being spent on the race track by Mr. D. D. Wilkins, of Duck Hill, Mr. Leel Streeter, of Rosedale, Mr. Marlowe Parks, of Leland, and John Rufus Perry, Dr. G. L. Johnson, Grady Green, W. W. Odum, George Garner, Walter V. Davis, J. D. Crenshaw and others of Grenada, made it possible for the people to see just as good racing as you would see on any race track.

Mr. Neel Streeter's Lone Star was driven by Lewis Peterson, and also Mr. Marlowe Park's Mainland. Tom Graham drove Mr. D. D. Wilkins' mare name Mineva. John Rufus Perry's mare named Jo Ann, was driven by George M. Garner. Mr. Willard Odum drove his own horse named "Play Boy".

Additional horses have come in the stable this week, which will make the races next Sunday afternoon even more interesting.

If you wish to see some good clean harness races, be sure to come out next Sunday afternoon.

### IRBY-DAVIS

A wedding, simple in setting and impressive in the use of the full ritual of the Church, was solemnized at five o'clock in the First Methodist church in Kosciusko when Mary Morrison Davis became the bride of Peyton Smith Irby of Grenada. Before an altar decorated with Shasta daisies and Golden Dream gladioli and lighted by the Cross, they pledged their faith in a double ring ceremony, the pastor of the bride, the Rev. Sam E. Ashmore officiating.

A program of wedding music, arranged by Mrs. Dickie Lacey, preceded the ceremony. Piano selections by Mrs. Lacey included: "Prelude" by Chopin and "Love Song" by Nevin. Vocal solos were given by Mrs. S. E. Ashmore and Mr. Louis C. Halley. Mrs. Ashmore singing "Love, Here Is My Heart" and Mr. Halley singing "The Sweetest Story Ever Told" and also "Kashmir Love Song", Wagner's Bridal chorus from "Lohengrin" was used for the processional and "Wedding March" from "Midsummer's Night Dream" for the recessional. During the ceremony, Mrs. Lacey softly played "At Dawning" by Cullman and at the conclusion Mr. Halley sang the blessing, "Oh, Perfect Love".

The two ushers were nephew and cousin of the groom, A. C. Kemp, Jr., of Calhoun City and Ray West Mabry of Dublin.

Mr. Irby was attended by Mr. Alfred Moore of Hattiesburg as best man, while the bride's attendants were her sister, Mrs. Louis C. Halley and Miss Donna Matthews of Greenville, whose dresses were pink marquisette and blue brocade-organza, respectively, were similarly made with a waist of tulle, sweetheart necklines and bouffant skirts. They carried old-fashioned bouquets of Shasta daisies, tied with matching tulle, and the same flower adorned their hair in a tiara.

The bride, entering on the arm of her father, W. V. Davis Sr., was stateliy in a flowing dress of white chiffon with high neck and full long sleeves. Her finger-tiara was held in place with white gladioli, while the same lovely bloom, in cascade effect, formed her bouquet.

Immediately after the ceremony a reception for out-of-town guests was given by the bride's cousins in the J. B. Davis spacious home on East Jefferson, where friends were greeted by Miss Mary Davis, aunt of the bride by Mr. and Mrs. W. V. Davis Sr. and Mrs. P. S. Irby, mother of the groom. In the dining room the lace draped table held a three tiered wedding cake surrounded by pink roses and pink candles in crystal candelabra.

Delightful refreshments of ice cream, cake and mint were served by little Misses Carolyn Oliver, Louise Oliver and Sudie Ann McCool, looking quaint and lovely in their long dresses of dotted swiss.

During the evening the bride and groom left for their wedding trip, after which they will make their home in Grenada where the groom is in business.

Among the out-of-town guests attending the wedding were: Mrs. P. S. Irby, Mrs. Sam Irby, Mrs. John Irby, Mr. H. B. West, Mr. and Mrs. Walter V. Davis, Jr. and Walter, III, Mrs.

Sam McCune, all of Grenada; Mrs. A. C. Kemp and A. C. Kemp, Jr., of Calhoun City; Mr. and Mrs. E. E. McCool, Susie Ann McCool, all of Jackson; Mr. John E. Aldridge of Winona; Mrs. M. H. Henry and Ray West Mabry of Dublin; Mr. and Mrs. Tom L. Irby and Tommie Irby of Ponca City, Okla. —Star Herald

## Dollarhite Reunion Held Sunday, June 8th

The children, laws, grandchildren and great-grandchildren of the late Mr. and Mrs. T. J. Dollarhite, of Yalobusha county met in the home of Mr. and Mrs. J. W. McCormick of the McCormick neighborhood on Sunday, June 8th for a family reunion.

A delicious meal, contributed by the different families of barbecued kid, fried chicken, boiled ham, salads, pickles, pies, cakes and bread, with tea, was served to twenty-six members of that family.

The occasion was in honor of one of the sons—H. G. Dollarhite, of Amory, Miss., whose birthday was then.

Those present were, Mr. and Mrs. H. G. Dollarhite and son, Henry Donis, of Amory; Mr. and Mrs. L. L. Dollarhite, of Oakland; Mr. and Mrs. N. S. ## Holcomb Vocational Class Entertains

On Thursday, June 5, Mrs. J. S. Rice and her local vocational afternoon class went over to Duggin Lake and had a most enjoyable day fishing and picnicking. For fear they might be fishing at the wrong time of the moon, enough chicken, country ham and other such reinforcements were carried along by the members of the class. Luckily, however, there were enough fish caught with the help of Mr. W. D. Holman and C. A. Martin that everyone had all they could eat and some to spare.

After the joy that comes with the moon hour, boat riding was enjoyed by some while others loled around leisurely until about 3:30, when they adjourned to meet with Mrs. Paul Gray.

At the meeting with Mrs. Gray which was another all day "fido", a quilt was almost quilted out. It is true that all those present did not know all there was to know about quilting—some getting their first experiences—but the nice meal accompanied by ice cream and cake later in the afternoon, was sufficient enthusiasm for trials.

The next meeting, Thursday, June 19, will be with Mrs. Paul Hayden. —Contributed

## Corner Stone of St. Peter's Catholic Church Laid

On the afternoon of Monday, June 17, His Excellency, Bishop R. O. Gerow, of Natchez, laid the corner stone of St. Peter's Catholic Church, Grenada, with the usual ceremonies. He was assisted by Rev. Father Cletus J. Greenwood and Rev. Father Cletus J. Manon, of Water Valley. The purpose of the ceremony is beautifully expressed in the prayer from the Roman Ritual read as the corner stone was put in place, "In the faith of Jesus Christ we lay the first stone in this foundation in the name of the Father and of the Son and of the Holy Spirit, that true faith, the fear of God and brotherly love may flourish in this place, which is destined as a place of prayer and for the invocation and praise of the name of our Lord Jesus Christ, who with the Father and the Holy Spirit liveth and reigneth God forever and ever, Amen."

After the ceremony Bishop Gerow addressed the people present, voicing his pleasure in being with the people of Grenada and congratulating them in achieving the goal of their ambition, having a Catholic Church in their midst, a church altogether different from every other church, a House of God, where Jesus Christ, true God and man would dwell, fulfilling His promises: "Behold I am with you always even to the consummation of the world." It is hoped that before long there will be a resident Catholic Priest in Grenada, as without a priest Grenada is one of the finest and most progressive cities in Mississippi.

Since 1878 the spiritual care of the Catholics of Grenada has been entrusted to the Jesuit, Father Valley. In the early days to hold service of the Mass was offered only several times a year in Grenada, and that in the home of one or the other of the parishioners. For the past year, through the kindness and courtesy of those in charge, the Catholics of Grenada have been privileged to use the Community House for services every other Sunday morning of the month. It is hoped that the new church will be ready for use the latter part of July. The church will be solemnly dedicated later on. Several Catholic Bishops, and a large number of priests will take part in the ceremony and all who have so generously contributed towards the purchase of the property and the building of the church will receive a special invitation to be present for the dedication service. The exact date will be announced later. The Pastor, Rev. Father Cletus J. Mason, desires to take advantage of this opportunity to express his sincere appreciation and gratitude to the people of Grenada for their fine spirit of charity and cooperation and trust that abundant opportunities will arise giving him occasion to prove his appreciation and his esteem for the people of Grenada. —Contributed

Medville Johnson of Holcomb, representing the Grenada County Coordinating Council, and Thomas Gillon, representing the Grenada Lions Club, attended the first "Boys Conservation School" conducted by the Mississippi Forestry and Chemurgy Association in cooperation with other conservation agencies of the State which was held near Houston in the Natchez Trace Park June 9-14.

## Attend Boys "Conservation School"

Tuesday morning, June 17, Misses Nellie Quinn Hayden and Lucy B. Hammonds entertained with a Coca Cola party in honor of Miss Hammond's sister, Mrs. Dennis Lord of New York City. She has been down visiting relatives and friends for several weeks.

### COCA COLA PARTY

The guests were met and ushered to Miss Hayden's living room, which was beautifully decorated in yard grass, cut flowers and U. S. flags. Coca Colas, on which were tied little U. S. flags, open face sawdwiches, Nabs and minis were served to about twenty-five guests.

Each person found a number in her napkin which provided much merriment for the occasion. During the refreshment period Miss Hammonds read a fortune from a little book and this corresponded with the number that each person had, and these were very clever.

After the refreshments a state contest was enjoyed with Mrs. Ruby May Morgan winning the prize. —Contributed

As we have more room in our new place - about three times the floor space - we hope to gradually buy more equipment so that we can do more and better work. In the old "den" it was impossible to get another piece of equipment inside, unless all the men got out to make room.

## TROTMAN-KETTLE

In a beautiful wedding ceremony at 3 o'clock Sunday afternoon, June 18, at All Saints Episcopal Church, Miss Mary Alice Kettle, daughter of Mr. and Mrs. Arthur Kettle and the late Mr. Kettle, became the bride of Mr. Eugene Trotman of Lexington, son of Mr. and Mrs. J. E. Trotman, of Charleston.

The Rev. C. S. Liles, rector, officiated in the presence of a large and fashionable assembly of relatives and friends.

Tall baskets of fragrant magnolia blossoms were placed in the sanctuary and the same lovely blossoms were arranged in the altar vases. The church was decorated with tall baskets of Shasta daisies and asparagus ferns, also several lovely arrangements of daisies in large jardiniere.

Two white satin pillows were placed for the bride and groom to kneel on. Altar candles cast a soft glow over the scene.

Preceding the ceremony, a program of nuptial music was played by Mrs. W. M. Mitchell, organist, and Miss Emma Kari Juchheim, violinist, and Miss Mary Louise West, soloist. Included in the program were favorite selections of the bride couple: Miss Juchheim, accompanied by Mrs. Mitchell played "To a Wild Rose" by McDowell. Miss West sang, "I Love You Truly" by Carrie Jacobs Bond, and the traditional Bridal Chorus from Wagner's Midsummer Night's Dream for the recessional. During the ceremony Mrs. Mitchell and Miss Juchheim softly played Schumann's "Träumerei".

The bride, who was given in marriage by her uncle, Mr. Jake Kettle, wore an attractive white starburst organza dress fashioned with short puffed sleeves and simple neck line. The full skirt fell gracefully from a natural waist line arrangement. A white leghorn of the face hair and white accessories completed her costume. She carried an old-fashioned bouquet of white summer flowers.

Mrs. Sam Brewer, a twin sister of the bride, was matron of honor. She was attired in an afternoon frock of white chiffon, a lovely off-the-face white hat and carried white flowers. Messrs. Gus Gerard and Joe Neely were ushers and Mr. J. L. Cooley, Jr. was best man. The groom and his attendants were attired in palm beach suits. They wore white carnations in their vest lapels.

Immediately after the ceremony the young couple left in their car for a honeymoon. Upon their return they will reside in Lexington. For traveling Mrs. Trotman wore a modish costume of light tan with trim of lucerne tan, and matching accessories. This marriage unites two splendid young citizens of Grenada. Mr. Trotman was AAA County Administrator in Grenada county before accepting a similar position in Lexington, and his bride, a native of Grenada, is a member of an old and honorable Grenada family. She has been employed at the County Agent's office for several years.

## MIGRANTS

Presbyterian Auxiliary Circle No. 3, met at the home of Mrs. H. D. Lane, Sr., Monday afternoon. Mrs. J. D. Hunter was co-hostess.

At this meeting a very impressive program was planned and "spit over" by the members. The study of "Migrants," the pitiable wanderers of America, who move from one section of the country to another, gathering crops or doing odd jobs, inspired the ladies to present a "playette" that could have been called "Chapter of the book, 'Graves of Wrath,' so realistic was it given.

Mrs. H. D. Lane, Sr. was "Granny," Mrs. C. H. Calhoun was "Ma," Mr. Lane was "Pa." Mesdames P. H. Lounsblood, A. M. Carothers, Thomas Grant and Rob Brown were the daughters. The grandchildren were Martha Katherine Grant, Belle Fair Brown, Ruth Tallent, Margaret Bradley, Ann Robinson, Bobby Wagner, Mickey Hayward, Sonny Hubbard, Jimmie Cooley, Joe Thompson and Margaret Yeager.

The entire cast wore in costumes, their clothes and faces grimy. They had secured an old "T" Model Ford car and it was laden with household furniture from the worn tin tub to the blousy feather bed.

The twenty-seven members were seated on the long porch of the Lane home when the cast "drove up."

Mrs. Calhoun, the "Ma" plead with the Christian ladies to help her and her family. This powerful and very splendid program was presided over by Mrs. Harry Adams, and will be reenacted on the church lawn next Monday afternoon.

The devotional was read by Mrs. Logan Wagner and a splendid article was read by Mrs. C. W. Thompson.

Lemonade and Vanilla wafers were served to the guests during the social half hour.

Wormack Smith, Jr., spent Sunday at home with his parents, Mr. and Mrs. W. E. Smith at Hardy and his aunt, Mrs. Glenn Thompson, in Grenada. Wormack is stationed at Maxwell Field, Montgomery, Ala.

Miss Bonnie Stewart and Mr. George Nicholson, of Newton, are guests this week of Mr. and Mrs. E. B. Province Jr.

## GABBERT-LICKFOLD REHEARSAL PARTY

The attractive home of Mr. and Mrs. E. R. Lickfold, Jr., was the scene of a beautiful party Tuesday night when they honored members of the Gabbert-Lickfold bridal party with a rehearsal party.

A lovely white, green and silver motif formed a charming background for the occasion, in this delightful new home. Exquisite shasta daisies, ferns, live dillies and white satin ribbon were effectively used to decorate the rooms of the home.

Refreshments were served at 10 o'clock from a table centered by a lovely bouquet of shasta daisies interspersed with ferns arranged against lace doilies. Slender white tapers burned in four silver holders matching the bowl in which the center floral piece was arranged. Charming corsages of daisies tied with white satin ribbon linked the silver candle holders, forming a very lovely setting for the serving of refreshments. Mrs. Charles Matthews in embossed chiffon, and Mrs. Wormack Smith in a pastel plaid crepe frock, were seated at the table to assist with the serving.

The hostess received her guests attired in white lace. The bride-elect, Miss Lickfold, wore a beautiful tulle-trousseau formal of black and American beauty.

## MISS LICKFOLD HONORED

A lovely, unassuming, courtesy for Miss Eleanor Lickfold, bride elect of Mr. Gabbert, of Senatobia, was the bride party and "Kippen" shower given on Wednesday afternoon of last week by Mrs. Spivey Kent and Mrs. W. A. McCook, at the home of the former.

For this occasion choice garden flowers were used to decorate the living room and adjoining dining room where the tables were placed. Miss Lickfold was attired in a lovely tulle-trousseau frock of blue with white accessories. She wore a lovely gift corsage of sweet peas, presented her by her hostesses.

In the bridge games Miss Jean Mayers won high score prize, a box of cosmetics, and this she graciously gave to the honoree.

Refreshments of delicious chicken salad and sherbet were served and at the close of the afternoon, Miss Lickfold was invited into the dining room where a miniature kitchen was arranged, and it was here that the many lovely kitchen utensils were presented her.

Mrs. Kent's gift was a device for cooking and serving of eggs. Mrs. McCook presented Miss Lickfold a silver serving spoon of the bridal pattern.

The nuptial music included the following selections: Organ solo "Traumerel," by Schumann; violin solo, "Evening Star," Wagner; vocal solo, "Sweetest Story Ever Told," (Miss West); "Meditation," Thais Messegue; a violin solo; vocal solo, (Mr. Sage); "Because" by D. Harelott; Lohengrin's Wedding March as professional, "To a Wild Rose" was softly played during the ceremony. Recessional was from Mendelssohn.

Ushers were Messrs. F. R. Lickfold, Jr., and Bert Bays, of Grenada and Messrs. Robert Meehan and Tate Smith, of Senatobia. The gentlemen wore identical suits of white Palm Beach with blue ties and blue handkerchiefs.

Dr. Charles Berry, of Greenville attended his friend as best man.

The bride's only attendant was her childhood friend, Mrs. Bertram Bays, who attended her as matron of honor. Mrs. Bays wore a lovely gown of pale gold marquisette over tulle, fashioned with sweetheart neck line, short full sleeves and bouffant skirt. She wore a bandeau head dress from which a becoming veil of gold tulle fell, reaching to her shoulders. Mrs. Bays carried a lovely bouquet of pink and yellow hued gladioli from which a shower of satin ribbon and ferns fell in graceful array. The bride, who was given in marriage by her father was radiant in a beautiful gown of double net made with a shirred bodice which featured a high neck line trimmed with lace and a most becoming wide shoulder effect, created by the two very lovely embroidered ruffles which ended at a tapered waist line. Long sleeves ended in points over the hand. A bouffant skirt ended in a demi train and her veil of net fell from a charming open crown head dress arrangement fashioned of shirred net and lace. She carried orchids arranged with white satin ribbon interspersed by stephanotis and fern. The bride's mother wore a lovely model of toast hued, woven net. Her hat and accessories were white and she chose white gladioli for a shoulder corsage.

The groomsmen chose a handsome dress of blue lace with which she wore a dusty rose felt hat and white gloves. She wore a corsage of white gladioli and fern. Mrs. Sage and Misses Louise West and Millie Gabbert were dressed in blue lace formals. Their corsages were of lovely pink gladioli.

The bride received her education at Grenada Schools, Grenada College and her degree at M. S. C. W. The past two years she has been a member of the faculty at Senatobia. The groom received his education in the Senatobia Schools and the University of Miss. He is in business in Senatobia. After a honeymoon spent in the Mountains of North Carolina, they will reside in their home in Senatobia. For traveling Mrs. Gabbert wore a lovely costume of combined brown and tan. Her accessories were of brown.

## BENEFIT BRIDGE

On Monday night, the Duplicate Bridge Club staged a duplicate bridge benefit for the British-American Ambulance Corps. Directed by Mr. L. D. Boone, thirteen tables of bridge enthusiasts played at the Community House and many of the fine points of the game were discussed. Mr. Ned Turner and Miss Lula Walker won North and South, and Mr. Bailey and Mr. Carey Ball won East-West.

Over \$300.00 was raised for this fund. It is interesting to note that 28 of the players were Grenadians—four were from Coffeeville, two from Winona and 18 came from Memphis.

Azalea the Grenada citizens responded nobly to a splendid cause.

Mr. Ben Adams, Jr., left early this week for a visit with his friend, John Petty in Greenwood. On Friday evening, Mr. Adams is to be in the Gillespie-Wiggins wedding at Indianola.

Friends of the late Mr. and Mrs. E. C. Neely regret to see the family home being vacated by the children of the family. On Wednesday morning Mrs. Harry Cory, nee Betsy Neely, the eldest sister, left for her home in New Orleans. She took her two young children and her youngest sister, Joyce, with her. Miss Frances Neely who is employed at Friedman's Dry Goods Store, will live at the home of Mrs. Susie Horton.

Miss Ruth Hunter, of Vicksburg, is spending her vacation in Grenada.

## Celebrates 89th Birthday

The very charming garden of the John Ben Perry, Jr., home on Line St., was the scene of a birthday celebration Monday evening, June 18th, when members of the family, children and grandchildren, gathered to celebrate the 89th birthday of their beloved mother and grandmother, Mrs. T. U. Moore.

Summer roses and shasta daisies, also other lovely garden flowers were in bloom, lending their beauty to the scene. The close clipped lawn and comfortable lawn furniture in white, proved a perfect setting for the serving of a picnic supper of delicious food.

For this occasion the honoree, Mrs. Moore was attired in navy blue dotted Swiss trimmed with val lace. She wore a beautiful corsage, a gift from Mrs. E. L. Gerard.

Kinsmen attending the supper included many near relatives.

Attending the supper were the following children: Mrs. J. B. Perry, Sr. and Mr. Perry, Mr. H. J. Ray, Sr., and Mrs. Ray, Miss Eva Ray and Mrs. Mary Leigh, grandchildren, Mr. and Mrs. J. B. Perry, Jr., Mr. and Mrs. H. J. Ray, Jr., Mr. and Mrs. Orley Lilly, Mr. and Mrs. Sam Hall Garner and

Miss Louise Perry, Great grandchildren, Betty and Orley Lilly, Mary Jane Perry, Mary Leigh Garner and Martha Ray White, of Memphis.

The lovely affair was the climax to a day of much happiness for Mrs. Moore. All through the day, the neighbors brought many lovely gifts and flowers also made friendly visits.

The Grenada County Weekly add their congratulations to those of other friends and wish for Mrs. Moore many more happy birthdays.

## Seen, Heard and Told By The Editor

To keep Greenfield and Horn out of devilment over Friday and Saturday, we solicit a good deal of job work. We can do it well and speedily.

Well, Plug Irbly is no longer a Benedictine, or is it a Benedict. Anyway, he has a mighty pretty new wife. The chains were placed Saturday.

The Paynes having moved from The Plant to the cross-plant in Montgomery, Alabama, the Tie Plant community lost some valuable citizens, but the GCW gained a long-distance two dollar subscriber. Good luck, folks.

Wonder how Doctor Stokes is getting along?

Most of those we cut off month before last have come back. Those who have not are not a loss to us for a non-paying subscriber is valueless.

We have failed to note a single young, vigorous member of Congress volunteering for service in the army, navy or marine corps. We would hate to send others to a war that we ourselves would not take part in. Most congressmen are useless anyhow, and COULD peel potatoes or wash dishes in the army.

Brothers Beckum and Chapuis were our carpenters and neither stopped for second during their working hours, but I do not know what they did when they were paid off. There is no telling.

Joe Thomas' bundle is a little bigger with the addition of Mrs. A. D. Bryant's paper. Welcome, sister.

Since we have a folding machine now, we will take all the subscribers we can get. While having to fold papers by hand, we took those who passed a meticulous examination (and had cash money).

First thing we know, Gene Proudft will be getting a pension and will be as miserable as St. Jones.

Our subscriber, Mrs. Mollie McLeod came down Sunday to see her children, Mr. and Mrs. Clarence Burt.

With prospects good for a cotton crop, and with the assurance that cotton will sell at or about 13 cents, the fall business for Grenada should be good, if merchants can get the goods they order.

Having more room, we hope shortly to add substantially to our equipment, although in the meantime we can do almost any kind of printing that anyone needs.

Trained hands are needed worse now than ever. We hope something can be done in Grenada to train the hands, as well as the minds, of our youths.

The Solar has gone back to New York, they say.

Nobody killed at Providence or Elhiott Saturday night.

Electric power may be curtailed; metals and fabrics may become scarce, but railroad service seems able to take care of its duties with respect to national defense. In times of emergency the railroads never fail.

Our old farm "secretary", Sele Clark, from Oxberry dropped in to see us Saturday. So did Anna Lott. Both are colored friends of long standing.

In this cosmopolitan world, we have finger nails, red, pointed, and chewed off; we also have from 2d nails to 6d nails right across the street in Donk's store, but these nails sink into utter insignificance when contrasted with J. L. Nail, our new subscriber.

Finley Horton and wife and boys are not depending upon the oil well. They are still improving their methods and adding to their stock. Beal Street owes Horton and Horton much for "coming out of the kinks". Fred Griffin and the GCW had something to do with it, too.

Cousin Andy Spriggs must be busy in the new ground, or busy fishing or fox hunting, for he has absented himself from Grenada for several weeks.

Here Mr. Top, I guess you are in there with polter ticks for we didn't get no where with them. I no more do better sense I stop fooling with them.

This is being written Sunday afternoon and I am scared my men, Greenfield and Horn, are in some kind of devilment.

One by one we are getting the few who are not subscribers. One of the latest additions is the name of Mrs. R. S. Herring. We have room for a few more "H's".

While most of our fellow editors were disporting themselves at the press convention at Gulfport last week, we were busy moving our lair. However we can truthfully say that WE stayed strictly sober, and that a statement we would not make concerning some of our fellow scribes.

The Band Boosters made a sale of the GCW to Mrs. T. H. Richardson, thereby helping themselves to four bits, helping us a dollar's worth and insuring Mrs. Richardson a year's supply of local news. Nobody hurt.

Just by way of passing, do you Grenada people recall any other Grenada paper ever using any local pictures? These pictures that we use cost hard cash money, but we believe one local picture is worth a hundred pictures of people and places we never heard of?

Well, Trotman has shed his robes of single blessedness and donned the robes of double cussedness, and we wish him and his splendid bride a long and happy life.

We have a sink, just like our neighbor, Roy Doak. Thus Grenada Grows.

The name of Mrs. W. W. Robinson which the Boosters helped add to the mailing list makes just one more to ward our goal. Welcome to you, Sister Robinson.

They have quit killing 'em down on 51 South.

I know that Hugh White and like Stone are worried about Mitchell. Well, he's still in Parchman.

## Defense Costly to Railroads, Too

One of the requirements of our national defense program is considerably increased rail transportation. In the long run, this program insists that MAY mean increased net earnings for the railroads, and FIRST AND FOREMOST it calls for increased expenditures to meet and handle the rise in traffic.

The extent of the total defense demand is not yet known, and it is complicated by such unexpected and often contrary developments as cessations and increases in production resulting from strikes, and the dried up ocean carriers from coastwise trade and the sea food growing crops from storage right at harvest time.

American railroads are adding approximately 100,000 new freight cars this year. The Illinois Central alone has added 10,000 service so far this year and has 2,515 more on order. These additions and improvements run into money, and that money must be paid for. If the added investment has a chance to earn any return.

What that means to the Illinois Central may be seen in the following: For the first four months of 1941, this railroad netted in its operations \$5,484,988. In the same period, however, it had improvements costing \$17,254,507, part of which had to be paid for.

The Illinois Central will spend to the limit for NATIONAL DEFENSE. Other expenditures will have to make their way.

### MISSISSIPPI CHIEF OF POLICE

Says:

"Beer is sold in a WHOLESOME atmosphere in this community . . ."

Chief of Police, M. M. Little of Hattiesburg, one of the most capable law-enforcement officials in the South, with an outstanding record of achievements to his credit, stated in a recent comment concerning the program of the Brewers and Mississippi Beer Distributors Committee:

"In my 4 years as an officer of the law I have never seen anything to equal the Clean Up or Close Up program of your committee.

"Most such programs are publicity stunts but you have proven to me that you mean business and together we have cleaned up a serious local situation.

"The beer industry, through your Committee, helped me remedy conditions in Hattiesburg by shutting off the supply of beer to eleven outlets in one area and we now have three petitions for revocation of permits pending before the State Tax Commission.

"The action of your Committee has also been a warning to others and has resulted in a voluntary cleaning up of my border-line outlets who are now rigidly adhering to the law.

"Due to your program beer is sold in a WHOLESOME atmosphere in this community and we expect, with your continued help, to keep it so."

Through the cooperation of law-enforcement officials like Chief Little and the thinking public — Beer — a beverage of moderation — made from wholesome American farm products under rigid tests for purity and quality — is increasingly available to you in WHOLESOME surroundings.

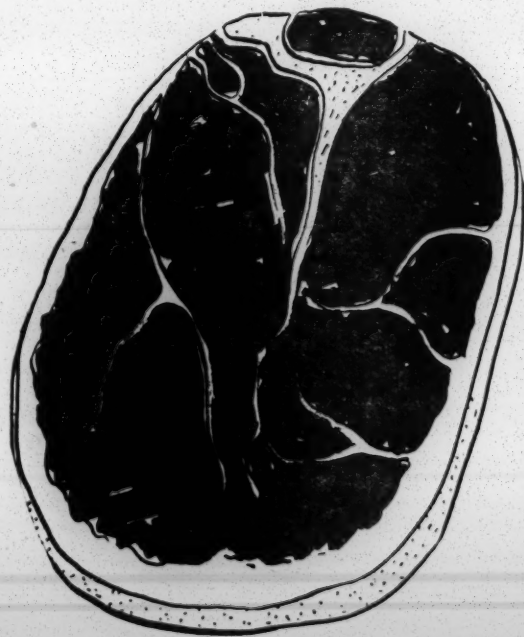

You can help protect these important benefits by patronizing the wholesome, law-abiding retail beer outlets in your community.

## We Move

Last Thursday and Friday, we moved the GCW equipment a few doors up Green Street to a substantial brick building, more than three times as large, which we are buying. We have left the "Chinch Den," not because we particularly wanted to move but because the property was sold. Not wishing to leave Green Street, upon which nobody ever went busted, and failing to rent suitable quarters, we bought a building. The whole force, including the editor, now feel that "we have been kicked upstairs"; that, with more floor space we may be able to serve our customers better, and with less frustration, that we will have room to have more or less audible conversation with our visitors while the press is running, and that we will have space to add to our job equipment gradually—to the end that this growing part of our business may grow more rapidly.

Foretelling any "flux" that might wreak disaster upon us when moving on Friday, the 13th, we followed an old Jewish custom of first moving into the new building a loaf of bread and a box of salt. It "worked" for it is a fact that when quitting time arrived Monday night we had more type set than on any Monday we can remember. We reduced the chaos immediately following the actual moving to order.

For the progress that we have made by which, first, we were able to pay out of our original plant debt and, second, were able to make a substantial down-payment on a building which was priced right, as well as for the many words of encouragement now being received and received in the past, we are greatly indebted to our many friends and customers whom we have striven to serve with a good community newspaper and with neatly printed job work.

## You Know How Wimmen Are, Mary

We had distinguished visitors in the Sun office not long ago. Whyte Whitaker of the Grenada County Weekly stopped by enroute home from St. Francisville, together with Herbert B. Allen, who writes an interesting column called "Under the Magnolia Tree" for the Weekly, and Jack Robinson of Chicago, globe-trotter and reporter extraordinary.

In the rush to get away last Thursday to the LPA meet, we omitted any mention of their visit but it certainly was not because we found it uninteresting. Jack Robinson and we editor kept the door for the most part, finding we had much in common. Messrs. Allen and Whitaker claimed in it and when they could, finding we had much in common. Messrs. Allen and Whitaker claimed in it and when they could, finding we had much in common. Messrs. Allen and Whitaker claimed in it and when they could, finding we had much in common.

All of which, as "H. H." would say, was "amusing" but somewhat "confusing." Then we read Mabel Whitaker's proof reading, "H. H." For shame, Mabel Whitaker! Is that the way you defend sister editors?—Sunrise Sun.

## Mr. Nebo Speaks

The following is one item from our esteemed Mr. Nebo correspondent.

Monday morning the writer joined himself to Grenada to help the GCW adjust their machines, and help line things up. So about 11:30 a. m. we breezed in with great pomp and power, found scene of unusual activity, everyone busy as a bee in a tar bucket. The lady with attractive green dress sitting off in corner giving the typewriter machine all that the traffic would bear. We didn't go near, thinking she might be the office poetess, or even Lady Byron herself and she might have the Muse eating out of her hand. Next thing we thought to inquire where Mr. Herbert Allen's lair or hide-out was, as we were keen to meet and interview a man that can write as he does, for he is a master of words, and know—his English. If Dickens, Teller or Tom Paine were here, they would have nothing on Mr. Allen, and his predictions are coming amazingly true. All here whom I have talked with are sold on Mr. Allen. We were told he was out of town on a mission to help build up Grenada. The general opinion here is that Grenada is fortunate to have the services of such a man. Our stay in town was pleasant, especially after meeting Mr. Haxby and Mr. D. D. Smith, for they both are so kind to us, failure to see and talk with that prince of good fellows, Will Ed Boudie, was the gloomy part of our trip, but we most forgot to say, when we offered to adjust the printing machinery, the editor said "let Mr. Horn do that," and we did.

## Let 'Em Volunteer

Within a matter of weeks, we believe, the United States will be at war. It is the duty of Congress to declare war. In Congress, especially in the lower house, there are many young, vigorous men who will vote to go to war, but will not volunteer their services for war duty, but will hide behind the fact that they are Congressmen to evade duty.

Rather than vote to send my constituents' boys to war without volunteering myself, I would resign.

Me and the GCW

## What's Going On In Grenada

This is the sixth of a series of articles dealing with the industries and institutions of Grenada which make for Grenada's progress and prosperity. These articles, too, will answer the pessimist who says, "We ain't got nothing in Grenada."

We are attempting to cover the industries and institutions that were not in existence in 1894 when we wrote a similar series of articles.

## The Grenada Farms

The Grenada Farms, owned by Frank Kraft, the active manager and John Kraft, the silent partner, is an organization containing a dairy farm a few miles out on 31 Highway north of Grenada and another dairy farm located near Brooksville, in Neshoba county, was organized and is being operated primarily for profit, of course, but will become, if other farmers will profit by its experiences, a proving ground to show that our lands can be "brought back" in fertility and that dairying if properly conducted is a profitable business.

On the 208 acres in Grenada county there are 30 dairy cows of exceptional quality. Just recently a model dairy barn 34 feet by 100 feet has been built, in which there are places for 52 cows. A deep well has been dug and \$700 has been spent in a water purifying plant. Two monolithic silos, each having a capacity of 100 tons, have been completed. A feed house, 40 x 60, with a basement 21 x 40 to house the temporary dairy plant, has been added. Plans are being drawn for a modern dairy plant, 30 x 70, of concrete construction, to convert suitable milk (of which Grenada Farms will buy in unlimited quantities from other farmers) into butter, buttermilk, cottage cheese and American cheese—if a sufficient quantity of milk is forthcoming from the farm and from other milk producers of this area. Equipment expected to arrive within two weeks will be used for making cottage cheese and butter.

The money spent for labor and materials in this enterprise has been quite large. We are informed that the labor payroll has been about \$900 per week for the past six months, and will continue at that rate for at least another three months. All material which could be had locally has been bought here.

As for production of feed and the introduction of new crops and new methods, Grenada Farms has five and one-half acres in alfalfa—a crop never successfully grown in this county—from which seven tons have been cut. Another cutting is now in progress. Sorghum for silage and corn both for silage and grain are grown successfully there. This farm has been drained and terraced over its entire area. Soy beans and peas are now being planted for soil improvement. Land is being prepared for another 3 1/2 acres of alfalfa, to be planted this fall.

Mr. Kraft informed us that 8 1/2 acres of real pasture—fertilized and cultivated crop of nutritious grasses on good land—have been created, and that eventually his pastures will meet that specification. This is in contradiction to our local idea of a "pasture," which is some worn out land enclosed in a three-wire fence. If taken advantage of by local farmers, the pasture making, the soil experiments and the other modern ways of exacting profit from the land, will be of great value here.

Mr. Kraft, like all experienced dairymen figures that the manure, both solid and liquid, from cattle is worth in money the expense of milking and caring for the cattle. He most carefully conserves this valuable fertilizer and returns it to his land. By way of parenthesis, we can say that in rural France the most prominent thing to be seen about the farmer's premises was a manure pile. As a consequence their land, some of which has been tilled for a thousand years, is more fertile now than it was originally.

At the Brookville operation, there are 75 cows (65 being milked now), 28 yearling heifers and 30 heifer calves all of fine breeding. This operation is managed as an integral part of The Grenada Farms by Mr. Frank Kraft. 82,045 worth of milk was sold from this farm in the last half of May.

From what we have seen, heard and read, we honestly believe, that far into the future, the dairy business will be profitable, and for these reasons: first, from the very great demand of the army and navy for dairy products; second, from the fact that, whatever the outcome of the present war, America must help feed the undernourished people of Europe; and, third, America must furnish breeding stock for vast areas of the old country, once peace comes.

While Frank and John Kraft are of the huge Kraft Cheese Corporation, and while the milk from the Brookville operation is sold to the Kraft Cheese plant in Brookville, The Grenada Farms is a private business engaged in production of milk, and is in no way connected with the Kraft Cheese Corporation.

If influence and example will promote emulation by other farmers of the Kraft methods, both in dairying and in soil building, the presence in Grenada county of Grenada Farms will be most valuable indeed.

## Don't Go Wild

We candidly believe that the Grenada area has an excellent chance for securing an army camp for the reasons that this area offers many physical elements essential to the erection and maintenance of a camp; BUT our people should not get their hopes too high and go wild about a camp. There is nothing certain about the location of the camp, and it will likely be a matter of a month before the War Department determines whether it will establish other camps and, if established where they will be established.

It would be a serious blow for Grenada to get all hot up about the camp, and then find that there would be no camp here. High hopes dashed to the ground are more disastrous than reasonable expectations that fail to materialize.

Let's be calm about it. A camp would be a fine thing for most people in Grenada, but we should remember that WITHOUT the camp, Grenada has gone forward very rapidly and WITHOUT the camp has most reasonable hopes for continuing its progress.

## A Fine Scheme

The scheme advanced thru these columns that the City of Grenada make a comprehensive survey of its water and sewer lines and secure a WPA project to make this comprehensive plan a reality, and financing the city's part by pledging part of the water receipts, is still a good scheme.

## FROM A REBEL HILL TOP

By The Grenadier

We were particularly interested in the comments of our young Vice President, Henry Wallace, on the subject of eighty-five percent parity prices for major farm crops. We heartily agree with Mr. Wallace. There will be a temporary stimulation of semi-prosperity among farmers. But it will only take about two months for other products which the farmer buys, to advance to that point where all of the advance in cotton and other farm prices will be cancelled.

In the United States, agriculture is the basic industry. No one in their senses imagines that this country can continue to subsidize its principal industry indefinitely. In the end, the inevitable adjustment of prices will come, and that trend will positively be sharply down ward. We will then see some remarkable changes, in the Southland particularly.

On the next downward trend in commodity prices, we will witness the end of cotton production in districts where it is no longer economically profitable to plant it—and this will take care of Grenada county, as a whole, automatically. In five years time there will other products grow where cotton now struggles to survive.

We cannot wait until we are running around in desperation to make a move in the direction of crop diversification. The big farmers, and planters, are now turning their minds to this great problem of the immediate future in Grenada county. They know, as well as any person knows, that the end is now in sight for Uncle Sam's foreign markets for cotton.

Later in the season, we shall publish information in this column which will reach us directly from Mexico, Peru, Brazil and other countries, where cotton is produced at prices lower than it can possibly be raised in the Southern United States.

There are active steps being taken to provide the farmers of Grenada county with crops other than cotton and corn, for which a cash market may be provided right here in Grenada.

And facilities for the sale of milk in large volume will be provided if the farmers here are willing to direct their energies in that direction. During this busy season on the farm, the Grenada County Chamber of Commerce is making every effort to have a program ready to present to Grenada county farmers after their present crops are harvested, which should appeal strongly to men who earnestly desire to receive more cash for their produce.

Speaking of new crops for Grenada, it is obvious that there are relatively few crops which can be found today which have a market that is positively established for several years to come. Only such crops are under consideration at this time.

When we think of crops for which the markets of the world are glutted, we usually think of cotton, wheat and similar commodities.

But the same condition prevails in many special crops such as pecans and walnuts. The United States home markets have been over-supplied for several years with these nuts, but the government was doing quite a fine job of opening new markets abroad for the export of our nuts. For example, pecans were being introduced into Canada, England, Scotland and Sweden, with considerable success. But naturally these efforts ceased with the inability of these buyers to accept, or transport, such shipments of luxuries.

In the tremendous readjustment which will take place after the termination of this world war, we in the South are not the only ones that will be confronted with economic problems of the most serious nature. The problem will be world wide.

When it is a conceded certainty that we are going to be confronted with such serious economic problems, the next step is to consider what means may be taken, in advance, to cope with their consequences, and ward off their disastrous effects as well as we possibly can.

Here in Grenada, we are studying these problems, and securing the advice and counsel of the ablest minds in the Southern states. The foremost farmers and planters in Grenada are actively and earnestly interested in what may best be done, and seek to act in cooperation with other Southern communities to protect Grenada's best interests.

And Grenada is pledged to solidly support the NORTHEAST MISSISSIPPI COUNCIL, which is being organized for the definite and specific purpose of aiding in the solution of our problems from the most scientific approach possible.

We North Mississippians sincerely appreciate the efforts which have been made toward organizing this new Council by the progressive, and exceedingly capable, young man who edits the Tupelo Journal, of Tupelo, Mississippi—George McLean. George is practically a Grenada boy, having lived, like Captain O. W. Scott, and certain other fine people, in the semi-civilization of Montgomery county! When Montgomeryans are such fine fellows, and are as capable as these two, we don't mind, in the least stretching our boundaries a little in order to include them among us.

We are proud of George McLean, for he is an editorial writer with that rare courage, in the South, or in the North, too for that matter, to write, and talk, the truth when it is most unpopular. It is a very easy matter for nit-wits to write the kind of tripe that every one loves to read, merely because it is so old and threadbare that everyone now believes it. When a thing has been around so long that it has finally come to be accepted as a fact by everyone—it is no longer true!

What about the Food Stamp Plan for the 4th Congressional District? Is this district barred, in bad or just too onery to get any of the grapes?

Nohite stuck his head in our door Saturday, but Jay Gore has not been on Beale Street in 21 or 22 years. He would be lost if he got off Main St.

Our friends, the Allens, left Saturday afternoon for an extensive research trip and will include in their itinerary Washington, New York, Chicago and part of southern Ontario.

Mrs. W. P. Hamsley, we wish to announce, has been added to our mailing list. I'll bet that's where Cousin Ira gets the GCW. The old tightwad has never yet subscribed, even though I was instrumental in getting him an easy nine-dollar job.

## UNDER THE MAGNOLIA TREE

By Herbert B. Allen

We mortals all have some particular ambition which we would like to see materialize. For example—Senator White would be happy to see some really progressive and urgently needed legislation enacted at Jackson. Mrs. David Dubard would like to see a snappy new Oldsmobile parked outside the Dubard's attractive residence. Homer Williams would like to run a picture, just once, which would please everyone.

Uncle Will Hoffa would like to see Grenada expand so that his beloved hill-side would become a splendid boulevard, overlooking Grenada in the valley. Frank Kraft would like to see this county blossom into a really fine dairying region. T. B. Revel would surely like to see a large number of Grenada county farmers make some real money for a change. For my part, I would enjoy the exhilarating experience of being really cool and comfortable for one long, restful night, just once more!

But for putting me in touch with a genuinely unique ambition, I am indebted to that fine person, Mr. E. T. Crisler, President of the Mississippi Press Association, and editor of the pioneer Port Gibson Reville.

In the ancient, and beautifully kept, cemetery at Port Gibson he recently took me to a grave which bore this truly remarkable inscription:

"Sacred to the memory of Henry Devine, a native of Ireland, who died in Port Gibson on November 7th, 1844, age 32 years. During the protracted illness which preceded his death, the deceased expressed the wish only to live long enough to vote for Henry Clay for President. His wish was granted. The last act of his life was to vote the Whig ticket, having done which, he declared that he died satisfied. His remains were followed to the grave by his fellow members of the Port Gibson Clay Club, and by them this stone is erected."

Those who are philosophically inclined may draw their own conclusions as to the merits of Mr. Devine's ambitions and aspirations. But it appears quite obvious that there was a time when at least some persons were more easily satisfied than most of us are today!

In the same Port Gibson cemetery, three veterans, Jack Robinson, Whyte Whitaker, and myself, and one reserve officer of the present army, Lieutenant G. O. Sanford, of Holcomb, stood at the grave of one of those brilliantly reckless cavalry leaders, who did their glorious best to make the reputation of the Confederate cavalry a glamorous one—Major General Earl Van Dorn.

General Van Dorn, and his eminent father, are buried facing to the south. Local tradition has it that the elder Van Dorn wished to be buried facing toward his residence. But General Van Dorn had an even stronger motive apparently. He was buried facing southward, "to spare him the necessity of seeing those damn Yankees!"

Incidentally, both Uncle Will Hoffa, and Whyte Whitaker, are related, through the Tennessee Donelsons, to the Van Dorns.

Port Gibson, quaint and picturesque.

Fit subject for a Whistler;

Is home to two grand gentlemen—

H. H. and E. T. Crisler.

No where in the world do people dislike being told the truth so much as in the South. And no where in the world do people need to be told the truth about economic matters so much as right here. The economy of the deep South is about to crack wide open in the not so distant future. We do not know a single economist who does not agree with that statement.

And when that is the case, we are glad to see a fellow editorial writer, and especially one with a fine paper to get out daily, who is patriotic enough to devote his valuable time to running here and there in the strenuous effort which is required to promote such a movement as the NORTHEAST MISSISSIPPI COUNCIL.

George McLean has substantial friends in Grenada who are solidly behind him, and the Grenada County Chamber of Commerce has gone on record as supporting this valuable and timely movement.

The Council has decided, by a vote of its members, to locate its offices at Oxford, where the facilities of Ole Miss will be readily available to promote the Council's interests. This location is easily reached by fine roads from all over North Mississippi.

The serious matter of selecting an able and aggressive secretary-manager for the Council is now under consideration. The chairman of the important committee to select an executive is our own Mr. B. J. Anderson, Mr. Anderson is a Southern go-getter. He knows how to handle his own interests in good times, which is a fine asset. But, of much more importance, to the new Council, he also knows how to get out and hustle for business in bad times, when the going gets really.

The position of executive secretary for the NORTHEAST MISSISSIPPI COUNCIL, will require the service of a man who possesses these identical qualities, in addition to a broad and comprehensive knowledge of the subjects most related to North Mississippi economics. It is an excellent indication that the new Council will secure the services of such a man as will command the respectful attention and support of all North Mississippi agricultural and commercial interests.

Good luck! Mr. George McLean and Mr. B. J. Anderson.

# LOYALTY SALE

To our many loyal customers and friends, we extend our sincere thanks . . . You made it possible for us to sell and deliver in May 58 new and used cars and trucks thereby bringing our sales this year to over 200 since January first.

## Be Loyal To Your Church .

In this time of strife and destruction in many foreign countries of the world today where Christianity has been forgotten and aggression of all small countries is topmost in the minds of the leaders of larger more powerful countries, it should make the people of this country more thoughtful of our church and their loyalty to the same. To help you help your church, to every purchaser of a used car or truck selling for more than \$200.00, we will forward, at his request and to any church or Sunday School organization he may designate, our check in the amount of \$5.00 as a contribution.

## Be Loyal To Your Country

This is a patriotic year in this good old U. S. A., with peace and harmony, we all should be proud to have "OLD GLORY" fly from our roof tops, windows in front of our buildings and homes--and renew again the "PLEDGE TO THE FLAG---I pledge allegiance to to the flag of the United States of America and to the republic for which it stands, one nation indivisible with liberty and justice for all." To assist everyone to display their colors--we will present to every purchaser of a used car or truck selling for \$150.00 or more, absolutely free, a large AMERICAN FLAG.

## Be Loyal To Yourself . .

Every purchaser of a used car or truck owes it to himself and to his family to investigate, and find out the exact amount which he is paying for finance and insurance charges. When you buy a new or used car on the General Motors installment plan, you will be protected by an insurance policy stating the exact protection you will receive, which includes fire, theft, flood, hail, cyclone, earthquake, rising water, tornado, explosion, glass breakage on new and late model cars and \$50.00 deductible collision.

Mrs. Stanley Heath, visiting here from Flagstaff, Arizona, reported that she received one copy of the GCW without name or street address, just "Flagstaff, Arizona." That is the only copy going to the town and the postal authorities, always efficient, delivered it straight. She missed one copy and suspected that the postman, who always reads the paper, forgot to deliver it when he got thru with it.

See where Wood farm near Shaw has 425 of its 1,000 acres in cotton. How does that compare with 26 per cent here?

My Column  
Cpl. Whyte Whitaker Jr.

We are scheduled to catch H.—this week. We are going out in the woods Monday, come back Tuesday, then back out Tuesday night, then we won't return until Friday afternoon. One gets kinda fatigued in four or five days without a bath. But fortunately thus far we have been lucky enough to camp by a nice mirror-like lake and late in the afternoon all of us take a nice bath, but I don't think that we will always be fortunate enough to get to bivouac by a lake.

Oh! Yes, and by these lake-sides we find our durn friends, the mosquitoes. A boy got bit by a big one the other night and had to have some skin grafted on the place.

No joking though, we have some new mosquito bars, now they don't grow big enough to drink so this is not the kind of bar that it sounds like. Now who ever heard of a mosquito walking in a mosquito bar and ordering a Flit and Soda?

Anyway we have been issued some new mosquito bars and they are fairly sturdy and easy to put up. They are box-shaped affairs, the old ones were tent-shaped and clumsy. These new ones take care of these Florida skeeters pretty well but when we go to Louisiana we will get some special made ones constructed of chicken wire with harps.

## YES, A NEWLY MARRIED SOLDIER NEEDS HELP

Regardless of laws or a national emergency it is self-evident that man and woman will continue to marry. It is an undisputed fact that the Supreme Being intended for man to marry woman. Two hearts beat as one in many years as it does in the far ones, likewise, in war as well as peace time.

Men that are newly married and are drafted receive only \$21.00 per month for the first three months and a shadowy better during the remainder of the year. It so happens that a large majority of these men haven't rich parents and in-laws to fall back on to support their wives during this period spent in the army. After the unfortunate soldier pays his insurance, laundry bill, buys necessary toilet articles, cigarettes and spends a lousy dime for entertainment there is not very much left of the \$21.00 for the support of his wife.

It is hard enough for a married man to leave his wife but when he realizes that he can't support her, deep, yes, long and deep thoughts circulate in his mind. "THE DIXIE" editor realizing this has been editorializing on the subject and is trying to work out some plan to relieve the pressing situation. The government will have to help support the worthy cases or employment will have to be given those ladies.

Here is a letter sent into the 31st Division Press Section by a soldier's wife:

Dear Mr. Editor:  
I wonder if it would be permissible for me to send you a "thank you" note for your editorial in the Saturday, June 7, 1941, edition of your paper "THE DIXIE" entitled "Jobs for Soldier's Wives."

Truthfully, no one who has not actually experienced that woefully inadequate feeling that comes from realizing

that your husband can no longer support you can really understand the situation that now exists with so many of the draft boards not classing married men as eligible for deferment.

As you stated, we wives who have never had to work before are left too proud to seek employment. In fact, we would even consider becoming maids in private homes. Although this fact would have to be carefully guarded from friends at home. Perhaps this all sounds just a little bit wild and rather but I am afraid it is all too true. To let us know more of this sort of publicity with people really begin to remember that these "boys" who "have" great responsibilities, are very human men and they don't expect to be really in a position to help the support of their wives.

## SPORT HISTORY OF ST. AUGUSTINE

Juan Ponce de Leon in search of the Fountain of Youth, discovered Florida on March 27, 1492. He landed at the Indian village of Selimundi on the bay when St. Augustine now stands. Pedro Menendez landed on August 28, 1565, with 200 souls and founded Saint Augustine, the first white settlement on what is now the territory of the U. S. Frained Drake, in 1586, plundered and burned the city, the Spanish soldiers as well as the people fleeing to the woods. John J. G. de la Cruz, in 1688, plundered and burned the city. Oglethorpe, Governor of Georgia, besieged the city in the summer of 1734. The inhabitants, 2000 in number, took refuge in the Fort during the siege. Unable to take the Fort, the siege was abandoned. All the governments of the elaborate lines of defense in the Fort. This Fort covers about five acres and stands in the exact spot where it was first built by the Indians as shown by the map made by Ponce de Leon in 1492. Change of the flags in 1821, Florida was sold to the United States for \$5,000,000. The stars and stripes were raised over Fort Mican July 4, 1821. The Fort is a very interesting place—an average of 1,000 visits are made to it per day.

Promotions made recently: Corporal Tilly to Line Sgt., Corporal James to Line Sgt., Private Prather died for honor and Private Kindred to Corporal.

It seems that Luten Costlow is going to leave all of his stripes and get two little gold bars in his place. To be sure the promotion itself seems most certain. He will, the "promotion" will cost him money for a while, for a commissioned officer is required to buy his own clothes, food and other things not borne by the army.

Here are some more "General Orders": Some take this seriously.

1. To take charge of the souls and all graves in view.
2. To watch my plate in a military manner, keeping always on the alert for any stray sausage that comes within sight, smell, or hearing.
3. To report any bread sliced too thick to the mess sergeant.
4. To report all calls for coffee more distant from its position than my own.
5. To quit the table only when there is no more.

Our old friend, S. A. G. is in the Plant, with a new car in the future.

## After All, Goliath Outweighed David

• The Bible story of little David killing the giant Goliath with a slingshot is familiar to all. Size is not the only thing that counts. The fact that you are big and husky, or unusually strong, doesn't necessarily mean that

you are immune to disease. Be prepared for any emergency. Have in mind a graduate physician and a competent prescriptionist to whom you can turn when necessity demands. We can fill your doctor's prescriptions with fresh, dependable drugs at a moment's notice.

## What's Wrong With This Picture?

Yes—the "FOR RENT" sign is upside down and the front walk is misdirected... but what else is wrong? The most obvious error concerns the young couple.

No man with a wife and children should gamble with their future comfort and safety... yet that is what he will be doing if he rents the house. Renting is a gamble... buying or building an investment. Rising rents can't reach you if you own your own home.

Ten percent down and easy monthly installments will buy a bigger and better home than you can rent for the same money. More information about borrowing and building a new home can be obtained at this office... free of charge and obligation.

It is a wonderful tribute to a man to have everyone say of him that his word is absolutely good. Everyone pays that tribute to John George, and we can add a sincere "amen" to that universally made statement. John, like all of us, may have faults. John, like the rest of us, is not perfect. But, in this era of insincerity, godlessness and hypocrisy, when it is said of a man that "his word is good" much has been said.

The old lady, we repeat, can not only write up social affairs, weddings, announcements, etc., but can order the engraved announcements, etc., and this will give her a break.
